You be you, it makes us, us!

→ Executive Summary

Our Vision

It's our vision to build a culture of belonging where everyone can be themselves. Where they have the skills, confidence, ambition and support to feel and perform at their best; driving the strength and diversity of thought that will help us and our industry to innovate and change quicker, redefining how we build for a brighter, more sustainable future - building communities and enriching lives.

Our Approach

It's proven that diverse business teams produce better results through diversity of thinking and experience. At Travis Perkins plc our values support the ability for everyone to be at their best and be themselves at work. For us diversity, equity and inclusion is not driven by targets, it is driven by the need for a high performing business and a culture where the desire to 'Do the right thing' sits at the core of what we do. Our businesses are a key part of the local community and it is important that our teams reflect the rich and diverse talent in our local communities in which we serve.

Doing the Right Thing

Where we're redefining how we build for a brighter, more sustainable future - building better communities and enriching lives.
